We are pleased to announce the new

Book edited by prof. Lilian Negura (u-Ottawa, Canada)

”L'intervention en sciences humaines, L'importance des représentations”

DIR.: LILIAN NEGURA

Ce livre qui se veut résolument pluridisciplinaire interroge la vraie ou juste place des représentations sociales dans un processus d'intervention. À quel moment et par quelles méthodes peut-on tenir compte des représentations des acteurs ? Est-ce possible d'un point de vue pratique ? Est-ce que les chercheurs et les praticiens de l'intervention ont une théorie des représentations ? Quelle est-elle ? Est-ce que les apports de l'intervention modifient la théorie des représentations sociales ?

Trois grandes orientations se sont dégagées de ces questionnements, correspondant aux trois parties de l'ouvrage. Dans la première partie, une orientation plus théorique propose des réflexions sur l'apport possible des représentations sociales dans l'intervention. La seconde partie de l'ouvrage, qui recouvre les perspectives de quelques disciplines des sciences humaines, décentre notre regard sur le rôle des représentations sociales dans l'intervention. La troisième partie porte sur des études de cas et des approches de terrain qui illustrent des modalités de l'utilisation des représentations sociales dans l'intervention.

EASP Small Group Meeting in Honor of Serge Moscovici

will take place in **Paris**, France

from the 17th to 18th of November 2016

Organizers: Juan A. Pérez (University of Valencia); Nikos Kalampalikis (University of Lyon); Saadi Lahlou (London School of Economics); Denise Jodelet (EHESS); Thémis Apostolidis (University of Aix-Marseille)

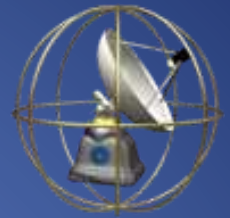

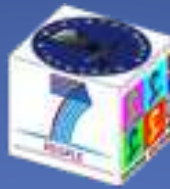

Contact: **Juan A. Pérez:** juan.a.perez@uv.es

The meeting aims to bring together junior and senior researchers to discuss theoretical aspects of Moscovici's work, his conceptual contributions, and the impact of his findings on social psychology. The meeting is therefore open to participation beyond the circle of past Moscovici's collaborators. Applications from PhD students are particularly welcome. We will examine how Moscovici's contributions can help to face the contemporary challenges of our discipline, if it wants to have societal impact: Rising tensions between communities, the necessity to help individuals change to more sustainable behaviour; new digital systems for social networking, increased intercultural contacts through globalization, emerging forms of collective intelligence (e.g. Wikipedia), etc..
